

TerraCoders

TerraCoders, LLC is a veteran-owned technology consultancy specializing in cloud automation, DevSecOps, and platform engineering. We deliver secure, scalable solutions aligned to DoD SWFT principles and modernize delivery pipelines for regulated environments. Available for subcontracting opportunities.

Core Competencies

- DevOps/DevSecOps and CI/CD Implementation
- SWFT-Aligned Delivery & Compliance
- Platform Engineering & Developer Enablement
- SBIR-Aligned Innovation & Prototyping
- Site Reliability Engineering (SRE)
- Cloud Infrastructure (AWS, GCP, Azure)
- Kubernetes Architecture and Operations
- Infrastructure as Code (Terraform, Ansible)
- Technical Training and Enablement (TerraCoders Academy)
- Cloud Consulting (AWS, GCP, Kubernetes)
- DevSecOps Automation & CI/CD

Differentiators

- Service-Disabled Veteran-Owned Small Business (SDVOSB)
- Active TS/SCI clearance (owner)
- Real-world SWFT and continuous compliance implementations
- Custom CI/CD tooling via TerraSail platform
- NIST 800-171 alignment with active SPRS score
- Secure-by-default automation practices for defense applications
- Proven record supporting classified DoD programs
- Combines consulting and custom training delivery
- Founder-led and technically hands-on

Past Performance

Backed by 25+ years of combined military, federal, and commercial experience delivering automation and cloud solutions:

- Supported U.S. Cyber Command and DoD agencies with secure cloud modernization
- Led platform and CI/CD pipeline development for mission-critical systems
- Developed internal developer portals and GCP self-service infrastructure
- Delivered technical training programs through a custom-built LMS
